Lettuce Demo 's-Gravzande 21 - 25 September

- ### Highlights
- **A walk through Nunhems' Retail Range:** discuss concept ready specialties
 - **Learn about High Density Mechanical Harvest Trials:** a solution for the future
 - **Visit to extended high tech lettuce research facility:** focused approach to keep ahead of a changing world
 - **Get to know more about our Lettuce Specialties highlighting Convenience & Chef's Lettuce**

Dear customer,
 We kindly invite you to join us for the **Nunhems lettuce demo** in the Netherlands, which is open to invitees in **week 39, from 21st to 25th September**, with additional possibilities for visiting us in week 38 and 40.

We at BASF believe in partnering with you through the entire value chain- from **Farm to Fork**. We are motivated to collaborate and co-create new ideas and concepts together with you, based on the latest market and consumer trends. We offer not only agronomic expertise but also market and consumer intelligence that will keep you on the top of innovation. Together we will work to let your business grow.

The whole visit is personalized for you so that you can have a look at interesting concepts and varieties suiting your business needs together with our sales specialist and product experts. The demo week undoubtedly gives you the platform for networking and discussing new industry trends and opportunities.

If -due to COVID-19- a live visit is not possible for you, digital options like live streaming sessions and individual digital meetings with our sales specialists will be available. More info will follow in the upcoming weeks.

Due to COVID-19 we kindly request you to fill in the attached registration form and return this to your Nunhems contact person.

With kind regards,
BASF Vegetable Seeds
