Growing together

in leek business

For 25 years, Nunhems has been working closely with the leek growers of Australia and New Zealand.

Nunhems has developed a strong foundation for high quality hybrid leek breeding. We have also developed one of the most specialised leek teams in the world. As you grow and strengthen your business we are there working with you.

The market in Australia and New Zealand is input heavy and incredibly focused on high quality product and uniformity on pack out. Nunhems's leeks have been developed to meet these needs.

When it comes to relationships and trust, Nunhems has specialised staff in Australia and New Zealand that are very proud to be offering their customers high yielding and robust leeks from a portfolio that is inclusive of all growing seasons. From Nunhems you can expect more, because our genetics and services provide added value through the entire chain.

We are "Growing Together in Leek Business".
